

# Blood Drive

Farmer and volunteer firefighter, Jason "Jake" Pansier would have lost his life if not for the determination of fellow paramedics and firefighters – and the generosity of blood donors. Jake received more than 300 units of blood following a tragic accident in the Town of Ledgeview. The tractor Jake was driving rolled over, trapping him for nearly two hours. Jake, who lost one leg as a result of his injuries, is grateful to be alive. As he wrote to one blood donor, "With your gift I will always stay strong and positive."

## Wales Community Blood Drive

Wednesday, November 15  
2 p.m. - 6 p.m.

**Location:** Wales/Genesee Fire Department, 600 S. Wales Road  
(Hwy 83)

*Pay it forward this Season of Giving! This November, BloodCenter of Wisconsin will choose 2 donors every week and donate \$250 to the charity of their choice. All attempting donors will also receive a coupon for a pint of custard from Culver's!*

Visit [bcw.edu/wales](http://bcw.edu/wales) or call Pauline at 262-968-3968 to schedule your appointment.

**Appointments encouraged. Refreshments provided.**

## Tips for a successful donation.

It's normal to be a little nervous, if you haven't donated before. Here are some tips to make your experience a positive one.

Most people can donate blood.  
Below are a few **reasons you may not** be able to donate.

**Medication** - you can donate three days after finishing antibiotics for an infection (bacterial or viral). You can donate if you are taking antibiotics to prevent an infection, for example, following dental procedures or for acne. Antibiotics for acne do not disqualify you from donating.

**Pregnancy** - women who are pregnant should not donate. Please wait to donate until 6 weeks after giving birth. Women who are breast-feeding are eligible to donate.

**Tattoos** - if applied by a licensed facility in Wisconsin, you can donate blood. If not, we require a 12-month waiting period from the time the tattoo was applied.

**Travel** - if you have traveled to an area impacted by malaria in the past year, we ask that you wait 12 months before donating after returning from that area. If you have ever had malaria, you must be symptom free for three years.
